March
23,
2015

On March 3, 2015, iA Financial Group launched its new website: ia.ca. As you may have noticed, this new website features simplified navigation and a sleek, modern design.

Update to the "Fund Performance" section

We would like to draw your attention to the "[Fund Performance](#)" section, which can be found under "Savings and Retirement / Fund performance". You will see that it is possible to not only view the unit value on the current date but also to view the performance history of all funds offered by iA Financial Group.

We would also like to take this opportunity to advise you that now that the new ia.ca website contains the entirety of this information, the old inalco.com website will be taken down as of tonight. All links previously used with respect to the inalco.com website will be redirected to the ia.ca website.
